![WiFi Network Login](image)

h. Press the Logon button  
Note: After the device menu is open select “Settings” Then look for “Wireless & networks” option. If the “Wi-Fi” box is not already check, please check the box to turn on the Wi-Fi.

**For Apple devices:**

1. Tap Settings > Wi-Fi. If Wi-Fi is off, turn it on by tapping the on/off button.  
2. Locate and tap **Hostos_Wireless**.
3. Wait for the login page to launch or tap the "Safari" icon to launch the web browser. It will take you to the Hostos Network Login page (See image below).

4. Enter your Hostos user name and password. You will now be connected to Hostos_Wireless.

How can I connect to Hostos_Wireless with Windows 7 on my laptop?

1. On the right side of the taskbar, there is a network icon () which shows the networks available. Click on it
2. In the list of available wireless networks, click Hostos_Wireless and then click Connect
3. Once connected open your preferred web browser and enter your email account credentials (username and password) on the log in page. (Image of login page below)
How can I setup Hostos_Wireless in my Windows 8 computer?

1. Go to **Settings** by swiping in from the right edge of the screen
2. Connect to our network by tapping **Settings** (or if using a mouse, point to the upper-right corner of the screen, moving the mouse pointer down, and then clicking **Settings**)

3. Tap or click the network icon ( or )
4. Choose the **Hostos_Wireless** network from the list of available Wi-Fi networks.

5. Tap or click **Connect**.
6. It will take you to [https://captiveportal-login.hostos.cuny.edu](https://captiveportal-login.hostos.cuny.edu). Enter your email user name and password then press the Log on button.

7. Once connected Internet Explorer will launch. It will take you to [https://captiveportal-login.hostos.cuny.edu](https://captiveportal-login.hostos.cuny.edu). Enter your Hostos user name & password then press the Log on button.
