Foreword

This guide is intended to serve primarily those faculty and administrators who are responsible for preparing and reviewing campus submissions of Academic Matters to the Chancellor's University Report (CUR). Any questions or suggestions concerning these guidelines should be directed to:

Dr. Ekaterina Sukhanova
Director of Program Review, Transfer, and Articulation
Office of Academic Affairs
The City University of New York
535 East 80th Street
New York, NY 10075
212-794-5699/5493
Ekaterina.Sukhanova@mail.cuny.edu

These guidelines cannot answer every question about the substance and format of academic items being submitted to the Chancellor's University Report. Colleges are invited to submit advance drafts of individual items to the Office of Academic Affairs to Dr. Ekaterina Sukhanova at the above address for a preliminary review prior to their inclusion in the Chancellor's University Report.

INTRODUCTION

The Chancellor's University Report

All academic curricula must be approved by the Board of Trustees. There are two channels for approval. New academic program proposals are approved via Board of Trustees, Committee on Academic Policy Program and Research (CAPPR). Other academic curricular matters, such as revisions in existing degree programs, the introduction of new courses, or revisions in existing courses, must be submitted through the **Chancellor's University Report**, which is approved by vote of the Board of Trustees. In addition to academic matters, the Chancellor's University Report also includes personnel and fiscal matters. Each campus prepares its own submission through Stellant for the Chancellor's University Report for Academic and Fiscal Matters and through CUNYfirst for Personnel Matters.

The Office of Academic Affairs (OAA) reviews all academic submissions to the Chancellor's University Report for conformity with University policy and State Education Department (SED) regulations. If OAA finds any item to be inconsistent with University policy or SED regulations, the OAA may modify or withdraw that item pending further review or revision.

At the Board meeting itself, the Trustees may raise questions about any item in the Chancellor's University Report. Occasionally, Trustees will ask that a specific item be removed pending further discussion or referred to the appropriate Board committee. Except where an item is deleted in that fashion, once the **Board approves** the Chancellor's University Report, most items in the report become effective and may be implemented without further notice to the college. However, major revisions in academic programs also require **approval by the State Education Department** before they may be implemented. Program changes that require SED approval are listed in Part A. (Other program changes require notification of SED, but not approval.) As with new programs, The Executive Vice Chancellor for Academic Affairs and University Provost will forward program revisions to SED requesting registration of the changes the day following the Board meeting; copies of the Executive Vice Chancellor's letter will go to the President and Chief Academic Officer of the college. When it registers the change, SED will send notification to the President with a copy to The Executive Vice Chancellor and University Provost. SED registration constitutes final approval of a major program change.

THE PLACEMENT OF ITEMS

CHANCELLOR'S UNIVERSITY REPORT

PART A: ACADEMIC MATTERS

- Section I: Special Actions
- Section II: Changes in Generic Degree Requirements
- Section III: Changes in Degree Programs
- Section IV: New Courses
- Section V: Changes in Existing Courses
- Section VI: Courses Withdrawn
- Section VII: Affiliation Agreements

ITEM NUMBERING

Each item number is comprised of three fields. First is a capital letter “A” which is followed by a Roman numeral which indicates the appropriate section of the report (see previous page). Following a period is an Arabic number which indicates a request for approval of a specific action appropriate to that section. A second Arabic number preceded by a period is only used when one is listing multiple items with the same action within the same academic department.

**Program Changes Requiring Approval
by the State Education Department**

For all changes that need prior approval by the State Education Department (as described below), a completed SED “Request to Change or Adapt a Registered Program” is required, and should be submitted as part of the CUR submission. If technical difficulties prevent this, the forms should be sent to the Office of Program Review, Articulation and Transfer at the Central Office of Academic Affairs, before the college submits the Chancellor’s University Report (CUR) in which the item is mentioned. The form should be marked on top with the appropriate CUR month and item number. For all other changes, entry into the CUR in a side by side, “to/from” format (see page 26 in this guide for an example) will suffice. If you are not sure how to proceed, please consult with:

Dr. Ekaterina Sukhanova
Director of Program Review, Articulation, and Transfer
(212)-794-5493/699
Ekaterina.Sukhanova@mail.cuny.edu

This information and a printable version of the “Request to Change or Adapt a Registered Program” can be found at
<http://www.cuny.edu/academics/programs/resources/changeofprogram.html>

Change or Adapt a Registered Program

Use the [Request to Change or Adapt a Registered Program](#) form to request program changes that require approval by the State Education Department (see chart).¹ For **programs that are registered jointly** with another institution, all participating institutions must confirm support for the changes.

Exception:

- **To change a registered teacher certification or educational leadership certification program or add a certificate qualification to an existing program, use the education program change form.**

¹ CUNY and SUNY institutions: contact System Administration for guidance.

Changes and Adaptations Requiring State Education Department Approval

Changes in Program Content (all programs)

1. Any of the following substantive changes:
 - Cumulative change from the Department's last approval of the registered program of one-third or more of the minimum credits required for the award (e.g., 20 credits in an associate degree program)
 - Changes in the program's focus or design (e.g., eliminating management courses in a business administration program), including a change in the program's major disciplinary area
 - Adding or eliminating an option, concentration, or track.
 - Eliminating a requirement for completion, including an internship, clinical, cooperative education, or other work-based experience
 - Altering the liberal arts and science content in a way that changes the degree classification, as defined in Section 3.47(c)(1-4) of [Regents Rules](#)

Other Changes (all programs)

2. Program title
3. Program award (e.g., change in degree)
4. Mode of delivery (**Note:** if the change involves adding a **distance education format** to a registered program, please complete the [distance education application](#) included in **Part C of this Handbook**)
5. Discontinuing a program
6. A format change that alters the program's financial aid eligibility (e.g., from full-time to part-time, or to an abbreviated or accelerated semester)
7. A change in the total number of credits of any certificate or advanced certificate program

Establishing New Programs Based on Existing Registered Programs

8. Creating a dual-degree program from existing registered programs
9. Creating a new program from a concentration/track in an existing registered program

ocueinfo@mail.nysed.gov

PLEASE NOTE:

Establishing an existing program at a new location requires new registration of the program. If the requested action changes the program's major disciplinary area, master plan amendment may be needed if the revised program represents the institution's first program in that major subject area, at that degree level. If a requested **degree title** is not authorized for an institution chartered by the Board of Regents, charter amendment will be needed.

- For **programs that are registered jointly** with another institution, all participating institutions must confirm their support of the changes.
- To change a registered professional licensure program or add a license qualification to an existing program, contact the [Office of the Professions](#) for guidance.

² If the partner institution is non-degree-granting, see CEO Memo 94-04 at www.highered.nysed.gov/ocue/ceo94-04.htm.

- To change a registered teacher certification or educational leadership certification program or add a certificate qualification to an existing program, use the education program change form.
- If the change involves **establishing an existing registered program at a new location**, complete a new registration application for the proposed program.

Check all changes that apply and provide the requested information.

Changes in Program Content (*Describe and explain all proposed changes; provide a side-by-side comparison of the existing and newly modified programs.*)

- Cumulative change from the Department's last approval of the registered program that impacts one-third or more of the minimum credits required for the award (e.g., 20 credits in an associate degree program)
- Changes in a program's focus or design
- Adding or eliminating an option or concentration
- Eliminating a requirement for program completion
- Altering the liberal arts and science content in a way that changes the degree classification, as defined in Section 3.47(c)(1-4) of [Regents Rules](#)

If new courses are being added as part of the noted change(s), provide a syllabus for each new course and list the name, qualifications, and relevant experience of faculty teaching the course(s). Syllabi should include a course description and identify course credit, objectives, topics, student outcomes, texts/resources, and the basis for determining grades.

Other Changes (*describe and explain all proposed changes*)

- Program title**
- Program award**
- Mode of Delivery** (**Note:** if the change involves adding a **distance education format** to a registered program, please complete the [distance education application](#).)
- Discontinuing a program:** indicate the date by which the program will be discontinued.³
- Format change** (e.g., from full-time to part-time, or to an abbreviated or accelerated semester)
 - a) Indicate proposed format:
 - b) Describe availability of courses and any change in faculty, resources, or support services:
 - c) Use the Sample Program Schedule to show the sequencing and scheduling of courses in the program.

³ If any students do not complete the program by the proposed termination date, the institution must request an extension of the registration period for the program or make other arrangements for those students.

Establishing New Programs Based on Existing Registered Programs

[] **Creating a dual-degree program** from existing registered programs

- a) Complete the following table to identify the existing programs:

	Program Title	Degree Award	Program Code
Program 1			
Program 2			

- b) Proposed dual-degree program (title and award):⁴
c) Courses that will be counted toward both awards:
d) Length of time for candidates to complete the proposed program:
e) Use the Sample Program Schedule to show the sequencing and scheduling of courses in the dual-degree program.

[] **Creating a new program from a concentration/track in an existing program.**

If the new program is based **entirely** on existing courses in a registered program, provide the current program name, program code, and the following information:

Note: this abbreviated option applies only if a master plan amendment is NOT required **and** there are no new courses or changes to program admissions and evaluation elements. If these conditions are not met, submit a new registration application for the proposed program.

- a) Information from the Application for Registration of a New Program_form: cover page (page 1), Sample Program Schedule form, and faculty information charts (full-time faculty, part-time faculty, and faculty to be hired)
b) Brief description of the proposed program and rationale for converting the existing coursework to a separately registered program:
c) Expected impact on existing program:
d) Adjustments the institution will make to its current resource allocations to support the program:
e) Statement confirming that the admission standards and process and evaluation methods are the same as those in the existing registered program:

Note: if the change involves **establishing an existing registered program at a new location**, complete a new registration application for the proposed program.

September 2009

⁴ Only candidates with the capacity to complete the requirements of both degrees shall be admitted to a dual-degree program.

Part B

Models of Academic Items

PART A: ACADEMIC MATTERS

Section AI: Special Actions

Special Actions Include but are not limited to:

- A. Changes in the name of a School or Academic Department
- B. Discontinuing degree or certificate programs
- C. Approval of a certificate or Advanced certificate program
- D. Establishing a Dual-degree program (B.A./M.A., B.S./M.S.)

EXAMPLE OF DEPARTMENT CHANGE

Part A: Academic Matters, Section AI: Special Actions

AI.1.1 Change in the name of the Department of Journalism.

RESOLVED, that the Department of Journalism at XYZ College be renamed the Department of Media Studies, effective September 1, 2010.

EXPLANATION: The Department of Journalism wishes to change its name to Media Studies to reflect the broadening of its offerings to include electronic media as well as traditional print media. The action is a name change only and does not affect the tenure or seniority status of any faculty member in the Department.

NOTE: If the name change includes the name of an individual or organization being honored, a separate resolution must be presented the meeting of the Board Committee on Faculty, Staff and Administration. Contact the Office of Human Resources Management at the Central Office for details.

EXAMPLE OF A PROGRAM NAME CHANGE

AIII:10.2b. BBA in Finance and Investment (HEGIS Code: 050500; Program Code: 01918) Change in Name of Program

FROM: BBA in Finance and Investments	To: BBA in Finance
--	---------------------------

Rationale: This name change is desired because everyone -- faculty, students, academic counselors, and administrators - refers to the "finance major" rather than the "finance and investments" major. The change of name will simply bring the formal name into conformance with universal current usage. No changes are being proposed to the requirements of the major itself.

EXAMPLE OF A DEREGISTRATION OF A PROGRAM

Part A: Academic Matters, Section AI: Special Actions

AI.1.2 Discontinuation of the B.A. in Communications program

RESOLVED, that the program in Communications leading to the B.A. degree at XYZ College (HEGIS number 0601, State program code 12345) be deregistered, effective September 1, 2010.

EXPLANATION: The B.A. in Communication programs has been losing enrollment for several years as faculty have retired and not been replaced, and the College's priorities have shifted. Admissions to the program were suspended with the fall semester, 2009. At its meeting of November 3, 2008, the Faculty Senate voted to suspend all further admissions to the program and to discontinue the program when currently enrolled students complete their degrees. All currently enrolled students are expected to complete their degrees by the end of the spring semester, 2011.

EXAMPLE OF A DEREGISTRATION FOR MULTIPLE PROGRAMS

AI.1.2 Program Closings

RESOLVED , that the following programs at XYZ College be de-registered, effective on the dates shown for each program:

<u>Program Title</u>	<u>Degree</u>	<u>HEGIS</u>	<u>State Program Code</u>	<u>Effective Date</u>
Communications	B.A.	0601	12345	Sep. 1, 2010
Spanish "7-12"	B.A.	1105	23456	Sep. 1, 2010
Sociology	M.A.	2208	34567	Sep. 1, 2010

EXPLANATION:

FORMAT FOR SUBMITTING REQUEST FOR APPROVAL OF A NEW CERTIFICATE PROGRAM

*APPROVAL OF A NEW CERTIFICATE OR ADVANCED CERTIFICATE PROGRAM

RESOLVED, that the proposed program in [program title] leading to the [IDENTIFY CERTIFICATE] to be offered at [name of college] College be approved, effective January 1, 2010, subject to financial ability.

EXPLANATION: [insert explanation and rationale] Add final sentence: “A copy of the full proposal is on file in the CUNY Office of Academic Affairs.”

*Additional documentation is always required for these matters. Colleges must consult with the Director of Program Review and Articulation and Transfer **before** the submission of a resolution into the CUR. Please include the attached form in Part C entitled “**EXPEDITED APPLICATION FOR REGISTRATION OF A NEW CERTIFICATE OR ADVANCED CERTIFICATE**”. It is strongly advised to submit the necessary forms as part of the Chancellor’s Report item. In case this is not feasible, and additional materials need to be submitted in paper copy, please add the following statement “ A copy of the full proposal is on file with OAA.” Also two copies of the documentation, a memo referencing the CUR month and item number must be submitted.

EXAMPLE OF A CERTIFICATE PROGRAM

Part A: Academic Matters, Section AI: Special Actions

SECTION: AI.1.3

A.I.1: CERTIFICATE PROGRAM IN PUBLIC POLICY

RESOLVED, that the undergraduate certificate program in Public Policy to be offered at [XYZ] College be approved, effective September 1, 2010.

EXPLANATION: The proposed certificate program consists of 27 credits, of which 18 credits are required and 9 additional credits must be chosen in a specialty area to complete the certificate. Students must also declare and complete the degree requirements of one of the registered degree programs offered by [XYZ] College, for example: Anthropology, History, Political Science, Urban Affairs and Planning, etc.

Undergraduate public policy programs have emerged in response to demands from students for areas of study that are more socially relevant. Understanding what government does and how it affects the lives of people is an essential part of a good education in a free society. It not only trains young people for work in a wide range of fields, it prepares them to be educated and responsible citizens in our democracy. The certificate is open only to students currently enrolled in an undergraduate degree program and will be issued together with the degree. These courses are applicable to programs in either Political Science (IRP: 02520) or History (IRP: 02501).

A full proposal is on file in the Office of Academic Affairs

FORMAT FOR THE APPROVAL OF AN DUAL-DEGREE PROGRAM

Part A: Academic Matters, Section AI: Special Actions

SECTION: AI.1.4.

*APPROVAL OF A DUAL DEGREE PROGRAM IN (PROGRAM TITLE) [BS/MS; BA/MA; BA/MS; ETC.)

RESOLVED, that the College’s existing programs [list undergraduate program title and SED program Code and degree award] and [list graduate program title and SED program Code and degree award] be combined to establish an accelerated program leading to a [list combined degree award BA/MA and program title etc.], effective January 1, 2010, subject to financial ability.

EXPLANATION: [insert explanation and rationale] Add final sentence: “A copy of the full proposal is on file in the CUNY Office of Academic Affairs.”

Supplementary to putting this change in the Chancellor’s University Report, the following table below must also be completed and submitted to OAA. This table can be found at <http://www.highered.nysed.gov/ocue/documents/changesept09.doc> or in our CD in this packet.

***Please include the table below and the Program schedule on page 14.**

Creating a dual-degree program from existing registered programs. Approval from the Central Office of Academic Affairs is required prior to submitting a new academic program through the Chancellor’s University Report.

a) Complete the following table to identify the existing programs:

	Program Title	Degree Award	Program Code
Program 1			
Program 2			

- b) Name the proposed dual-degree program (title and award).⁵
- c) List the courses that will be counted toward both awards.
- d) Indicate the length of time for candidates to complete the proposed program.
- e) Use the Sample Program Schedule to show the sequencing and scheduling of courses in the dual-degree program.

⁵ Only candidates with the capacity to complete the requirements of both degrees shall be admitted to a dual-degree program.

In addition to the table, and submitting the program through the CUR, the program schedule should also be included.

EXAMPLE OF A DUAL-DEGREE PROGRAM

Section AI: Special Actions

AI:10.1 Approval of a Dual Degree

Program [BA in Economics/MPA]

RESOLVED, that a dual degree award, established as a stand-alone program, leading to the B.A. in Economics/M.P.A be created from the College’s existing programs, the B.A in Economics (SED program code 00000) and the the M.P.A. (SED program code 00000 effective September 1, 2010, subject to financial ability. The BA in Economics (SED program code 00000) and M.P.A. (SED program code 00000) will also be retained as self-standing programs.

Program Description: The Five-Year Economics BA/MPA offers qualified students the opportunity to earn both a Bachelor of Arts degree and a Master of Public Administration degree which may be completed in as little as five years. The curriculum is composed of the common core for the BA degree, the economics BA curriculum, and 36 credits of graduate coursework in the MPA program for a total of 144 credits. Candidates must apply to the program no later than the first semester of their senior year, and may apply as early as the start of their junior year. The accelerated pace is made possible by offering qualified students the opportunity to take four graduate courses (12 credits) in the School of Public Affairs during their final year of undergraduate work (these credits do not form part of the undergraduate major but rather function as elective credits towards the BA degree). Students qualify by maintaining an overall GPA of 2.8 as well as a GPA of 3.0 in the economics major through the first three years of study and by completing all of the necessary prerequisites for those courses, which will ensure that they are prepared for graduate level work.

Total credits for the dual degree program: 144

Rationale: Economics is the third largest major in the college, with well over one hundred students working toward a BA degree in the subject at any given time, although the size of the group who meet the GPA requirements for this program is relatively modest—about 20. Our research has revealed not only that some of these students are among the highest achievers in the college, as measured by their overall GPAs, but also that members of this group have an interest in combining the study of economics with the study of social issues.

During a May 2009 focus group, a number of students expressed enthusiasm for the idea of a five-year BA/MPA program and indicated that if it had been in existence when they were beginning their study of economics, they would have taken advantage of it. This information suggests that a steady source of qualified students exists ready-made, so to speak; we anticipate that approximately 3-5 students per year will enter the program. Thus, while we do not expect this program to draw a large number of students, we feel that it will provide a welcome opportunity for a select few who have both the interest and the ability to take advantage of it. Completion of the proposed program will certify said students as qualified to pursue a variety of career opportunities in the public sector and the world of non-profit organizations.

Because it is a coordination of two existing programs, the Five-Year economics BA/MPA program has no additional costs attached to it. Every student who enrolls in the program and thus chooses to stay on and complete an extra year of coursework at the college (rather than leave to pursue graduate work or employment opportunities elsewhere) represents a financial gain for the institution.

All academic programs at the College are assessed on a regular basis according to the guidelines established by the Middle States Commission for Higher Education. Accordingly, both the BA Economics major and the MPA program submit regular assessment reports. Students in the Five-Year Economics BA/MPA program will form a cohort within the MPA program proper, and it will be possible to assess the learning of this cohort both in its own right and in relation to other MPA students.

The recommendations of the Committee on Undergraduate Curriculum were approved at the Faculty Meeting on January 17, 2010 effective the Spring 2010 semester, pending approval of the Board of Trustees.

EXAMPLE OF A CHANGE IN GENERAL EDUCATION REQUIREMENTS

Section AII: Changes in Generic Degree Requirements

Changes in College-wide Degree Requirements include:

- Changes in general education requirements

AII.1 College-wide Requirements

All students must satisfy the following general education requirements:

1. The basic skills requirements in mathematics, reading, English composition, and speech as stated in this Bulletin under the heading “Basic skills requirements.”
2. The Core Studies courses and the foreign language requirement of the core curriculum as stated in this Bulletin under the heading “Core curriculum.”
3. [The writing-across-the-curriculum requirement as stated in this Bulletin under the heading “Writing across-the-curriculum requirement.”] All students must satisfy the College Writing Intensive requirement by (1) completing a writing-intensive course (designated with a W after the number) or (2) completing a writing-intensive major (currently English, Music, Philosophy, and Political Science). Students should be aware that most programs require one or more W courses within their major or a related discipline. See “Transfer Students” for waiver regulations.
4. Starting September 1, 2003, all enrolled students, regardless of when they entered CUNY, are subject to the CUNY Proficiency Examination (CPE) requirement. Students who transfer with 45 credits or more must take the examination in their first semester.

Rationale: The college-wide requirement formerly referred to as “writing-across-the-curriculum” is now designated as a “writing intensive” requirement with the revised stipulations as indicated in this item.

Section AIII: Changes in Degree Programs

Changes in Degree Programs include:

- Changes in the admissions, course, or graduation requirements
- Addition or deletion of an option, track, or concentration⁸.
- Cumulative change from the department's last approval of the registered program that impacts one-third or more of the minimum Credits required for the award (e.g. 20 credits in an associate degree)
- Changes in a program's focus or design
- Altering the liberal arts and science content in a way that changes the degree classification.
- Change in program title
- Change in program award
- Program Delivery Format change. With format changes please indicate the proposed format (e.g. evening, weekend). Describe the availability of course and any change in faculty, resources, or support services. Also use the program schedule on page 14 to show the sequencing and scheduling of the courses in the program.

Please indicate the type of change, the title of the program, its IRP code, and all other relevant information so that we may speed up the process!

⁸ Options are used in associates' degrees, concentrations in bachelors' degree, and tracks in graduate degree programs.

EXAMPLE OF A PROGRAM CHANGE

Total credits required for the A.A.S.	60⁹		

Rationale: The proposed changes will maintain the same number of credits and hours as in the existing curriculum. There are no changes to the liberal arts and sciences courses. The proposed Computer Technology curriculum represents a balance of instruction in computer hardware, software, system design, liberal arts and science, and communications. It has been updated to insure that students are familiar with current programming languages and technologies.

⁹ Please note: Credit totals must be included for all changes in degree programs. Program credit totals must be in compliance with the University's 60/120 policy unless the college has an approved waiver. If a waiver is required, colleges should consult with Dr. Ekaterina Sukhanova prior to submission for a change in degree programs.

EXAMPLE OF A NEW MINOR

New Minor in Business Practice Offered by the Department of Economics, Accounting and Business Administration.

From :	To :
No such minor is currently offered.	MINOR IN BUSINESS PRACTICE. This minor consists of any four courses with a BBA prefix. Not open to students majoring in Accounting or Business Administration. Students majoring in Economics cannot elect BBA 303 under this minor.
Rationale	
The required sequence of courses provides an adequate preparation for general business practice. Students dropped from the BBA major for not having achieved the minimum 2.7 (B-) cumulative index in the first four BBA-prefixed courses taken in the program, may count these courses toward this minor without loss of credit; however, they cannot elect a new major offered by the Department of Economics, Accounting and Business Administration, with the exception of Economics.	
Students majoring in Economics, conversely, should be given the opportunity to take a series of business courses to improve their career prospects, if they wish. There is no overlap in course requirements of B.A. in Economics and this minor, except that Economics majors must not elect BBA 303 under this minor.

EXAMPLE OF COURSE WITHDRAWN

Section AVII: International Program Agreements

EXAMPLE OF INTERNATIONAL PROGRAM AGREEMENT

AVII.1 International Agreement with Freie Universität, Berlin, Germany

RESOLVED: That the Board of Trustees of The City University of New York authorize the President of College ABC to execute an international study abroad agreement on behalf of College ABC with Freie Universität, Berlin, Germany, to enable students enrolled in the College's Education Abroad Program to study History, Politics, German Language and other courses as part of the Freie Universität Berlin International Summer and Winter programs. Other than the transmission of tuition by the College to Freie Universität Berlin, neither party to this agreement is obligated to pay any monetary consideration to the other. The agreement is for a one-year period beginning June 1, 2009 and shall include up to two two-year options for the College to renew in its best interest. The agreement shall be subject to approval as to form by the University Office of the General Counsel. This agreement {or revised agreement} was approved by the Office of General Counsel for submission to the Chancellor's University Report on {insert date}.

EXPLANATION: CUNY students enrolled in the College ABC Education Abroad Program will be able to attend FUBiS programs and take courses that are pre-approved by College ABC. Approximately thirty (30) CUNY students will participate in this program each academic year, which will include the following terms for the first year of the agreement: Summer 2009 Session I and Session II.

The requirements for international program agreements are described in the Tuition and Fee Manual. Authorizations to sign international program agreements follow the general model of affiliation agreements, with appropriate adjustments.

EXPLANATION:

- Colleges should consult with the CUNY Office of General Counsel prior to submitting information to the CUR. Prior approval by the CUNY Office of Legal Affairs is required **before** the submission of any international agreement resolution. Contact:

Office of General Counsel
(212)794-5382

Section AVII: Affiliation Agreements

Affiliation agreement authorizations between a CUNY college and a non-CUNY institution, such as a hospital, for the benefit of students enrolled in a registered degree program at that college are no longer submitted through the Chancellor's University Report. They are now handled through the Office of General Counsel, at Central Office.

1. Program Description and Purpose

Provide a brief description of the program as it will appear in the institution's catalog.

Answer:

Describe educational and (if appropriate) career objectives.

Answer:

How does the program relate to the institution's mission and/or master plan?

Answer:

Describe the role of faculty in the program's design.

Answer:

Describe the input by external partners, if any (e.g., employers and institutions offering further education).

Answer:

What are the anticipated Year 1 through Year 5 enrollments?

Answer:

2. Sample Program Schedule

Complete the sample program schedule (**Table 1**) for the first full cycle of the program (e.g., two semesters for a traditional 24 credit-hour Certificate program).

- If the program will be offered through a nontraditional schedule, provide a brief explanation of the schedule, including its impact on financial aid eligibility.
- For existing courses, submit a copy of the catalog description. Provide syllabi for all new courses. Syllabi should include a course description and identify course credit, objectives, topics, student outcomes, texts/resources, and the basis for determining grades.

3. Faculty

a) Complete the faculty tables that describe full-time faculty (**Table 2**), part-time faculty (**Table 3**), and faculty to be hired (**Table 4**), as applicable. Faculty curricula vitae should be provided only on request.

b) What is the institution's definition of "full-time" faculty?

Answer:

4. Financial Resources and Instructional Facilities

a) Summarize the instructional facilities and equipment committed to ensure the success of the program.

Answer:

b) Complete the new resources table (**Table 5**).

5. Admissions

a) List all program admission requirements (or note if identical to the institution's admission requirements).

Answer:

b) Describe the process for evaluating exceptions to those requirements.

Answer:

c) How will the institution encourage enrollment by persons from groups historically underrepresented in the discipline or occupation?

Answer:

6. Academic Support Services

Summarize the academic support services available to help students succeed in the program.

Answer:

7. Credit for Experience

If this program will grant substantial credit for learning derived from experience, describe the methods of evaluating the learning and the maximum number of credits allowed.

Answer:

8. Program Assessment and Improvement

Summarize the plan for periodic evaluation of the new program, including a timetable and the use of data to inform program improvement.

Answer:

9. Transfer Programs

If the program will be promoted as preparing students for transfer to a program at another institution, provide a copy of an articulation agreement with the institution

Table 2: Full-Time Faculty

Faculty teaching at the graduate level must have an earned doctorate/terminal degree or demonstrate special competence in the field. Provide information on faculty members who are full-time at the institution and who will be teaching each course in the major field or graduate program. The application addendum for professional licensure, teacher certification, or educational leadership certification programs may provide additional directions for those types of proposals.

Faculty Member Name and Title (include and identify Program Director)	Program Courses to be Taught	Percent Time to Program	Highest and Other Applicable Earned Degrees & Disciplines (include College/University)	Additional Qualifications: list related certifications/licenses; occupational experience; scholarly contributions, etc.

Table 3: Part-Time Faculty

Faculty teaching at the graduate level must have an earned doctorate/terminal degree or demonstrate special competence in the field. Provide information on part-time faculty members who will be teaching each course in the major field or graduate program.

Faculty Member Name and Title	Program Courses to be Taught	Highest and Other Applicable Earned Degrees & Disciplines (include College/University)	Additional Qualifications: list related certifications/licenses; occupational experience; scholarly contributions, etc.

Table 4: Faculty to be Hired

If faculty must be hired, specify the number and title of new positions to be established and minimum qualifications.

Title/Rank of Position	No. of New Positions	Minimum Qualifications (including degree and discipline area)	F/T or P/T	Percent Time to Program	Expected Course Assignments	Expected Hiring Date

Table 5: New Resources

List **new** resources that will be engaged specifically as a result of the new program (e.g., a new faculty position or additional library resources). New resources for a given year should be carried over to the following year(s), with adjustments for inflation, if they represent a continuing cost.

Application to Add the Distance Education Format to a Registered Program

Name of Institution:

CEO or Designee:

Signature:

Date:

The signature of the institutional representative indicates the institution's commitment to support the proposed distance education program.

Distance Education Contact Person:

Telephone:

Fax:

E-mail:

Program Title:

Program Code:

Degree or Certificate Awarded:

HEGIS Code:

Anticipated enrollment in distance program:

Initial:

Maximum by year 3:

Term length (in weeks) for the distance program:

(Is this the same as term length for classroom program?) Yes No

How much "**instructional time**" is required per week per credit for a distance course in this program?

(Do not include time spent on activities that would be done outside "class time", such as research, writing assignments, or chat rooms.)

What proportion or percentage of the program will be offered in Distance Education format?

What is the maximum number of students who would be enrolled in an online course section?

Part A: Institution-wide Issues: Submit this part for the first Distance Education program proposed by your institution. This will be kept in a master file, and will not need to be resubmitted for each new proposed online program, unless there are changes.

I. ORGANIZATIONAL COMMITMENT

1. Describe your institution's planning process for Distance Education, including how the need for distance access was identified, the nature and size of the intended audiences, and the provisions for serving those audiences.
2. Describe your institution's resources for distance learning programs and its support services to ensure their effectiveness. What course management system does your institution use?
3. Describe how faculty are trained and supported in developing and teaching online courses, including the pedagogical and communication strategies to function effectively. Describe the qualifications of those who train faculty, or are otherwise in charge of online education.
4. If your institution uses courses or academic support services from **another provider**, describe the process used (with faculty participation) to evaluate their quality, academic rigor, and suitability for the award of college credit and a degree or certificate.
5. Does your institution have a clear **policy on ownership of course materials** developed for its distance education courses? How is this policy shared with faculty and staff?

II. LEARNER SUPPORT

1. Describe how your institution provides distance students with **clear information** on:
 - Program completion requirements
 - The nature of the learning experience
 - Any specific student background, knowledge, or technical skills needed
 - Expectations of student participation and learning
 - The nature of interaction in the courses.
 - Any technical equipment or software required or recommended.
2. Describe how your institution provides distance learners with adequate **academic and administrative support**, including academic advisement, technical support, library and information services, and other student support services normally available on campus. Do program materials clearly define how students can access these support services?
3. Describe how **administrative processes** such as admissions and registration are made available to distance students, and how program materials inform students how to access these services.
4. What **orientation** opportunities and resources are available for students of distance learning?

Part B: Program-Specific Issues: Submit this part for each new request to add Distance Education Format to a registered program.

III. LEARNING DESIGN

1. How does your institution ensure that the **same academic standards and requirements** are applied to the program on campus and through distance learning? If the curriculum in the Distance Education program differs from that of the on-ground program, please identify the differences.
2. Are the courses that make up the distance learning program offered in a sequence or configuration that allows **timely completion of requirements**?
3. How do faculty ensure that **the technological tools** used in the program are appropriate for the content and intended learning outcomes?
4. How does the program provide for appropriate and flexible interaction between faculty and students, and among students?
5. How do faculty teaching online courses verify that students are doing their own work?
6. **For programs that prepare candidates for teacher or educational leadership certification:**
Explain how the required field/student teaching/practicum/internship experiences meet requirements for the selection of cooperating teachers (licensed/certified in the certification areas of candidates); college faculty supervision and assessment of candidates; and collaboration between the faculty supervisor and cooperating teacher in assessing the candidate within the goals and objectives of the program and the State Learning Standards.

IV. OUTCOMES AND ASSESSMENT

1. Distance learning programs are expected to produce the **same learning outcomes** as comparable classroom-based programs. How are these learning outcomes identified -- in terms of knowledge, skills, or credentials -- in course and program materials?
2. Describe how the **means chosen for assessing student learning** in this program are appropriate to the content, learning design, technologies, and characteristics of the learners.

V. PROGRAM EVALUATION

1. What process is in place to monitor and **evaluate the effectiveness** of the distance learning program on a regular basis?
2. How will the evaluation results will be used for **continuous program improvement**?
3. How will the evaluation process assure that the **program results in learning outcomes appropriate to the rigor and breadth** of the college degree or certificate awarded?
