Job Vacancy Notice

Job Title: IT Associate, Level 2 (Provisional) - Full Stack/DBA/Sharepoint Developer

Job ID: 20456

Location: Hostos Community College

Full/Part Time: Full-Time

Regular/Temporary: Regular

GENERAL DUTIES

I.T. Associates perform moderately complex professional work in technology-related disciplines. While areas of specialization vary, typically I.T. Associates work in areas such as development/programming, communications, technical support, or similar functions depending on the needs of the Information Technology area to which they report. Work tasks include resolving complex technology problems and serving as a technical resource. They have considerable latitude for independent initiative and judgment and may have supervisory responsibilities.

I.T. Associates should demonstrate mastery of one or more technology-related disciplines.

This job is in CUNY's Classified Civil Service. The full specification is available on our web site at
http://www.cuny.edu/about/administration/offices/ohrm/hros/classification/ccsjobs.html

CONTRACT TITLE

IT Associate

FLSA

Exempt

CAMPUS SPECIFIC INFORMATION

The award-winning and innovative IT department at Hostos Community College is looking for an experienced, end-user focused full-stack developer. Reporting to the Manager of Enterprise Applications, the selected candidate will be a creative problem solver with a knack for translating user requirements and institutional challenges into solutions which are responsive. They will be able to review legacy applications and determine how best to support or enhance them. The individual will ensure best practices are followed in the security architecture for solutions and be a valuable team player in helping the department deliver the next generation of applications to the campus community.

Additional responsibilities include the following:
- Performs database administration tasks
- Serves as Sharepoint administrator
- Responsible for Sharepoint and Mobile application development

Note: This is a provisional position.

MINIMUM QUALIFICATIONS

1. High School Diploma, G.E.D., or equivalent

2. An equivalent of seven years of experience post-high school that can be met by one of the following: seven years of full-time work experience in a computer or technology related position; an Associate's degree plus five years of full-time work experience in a computer or technology-related position; a Bachelor's degree from an accredited institution plus three years of full-time work experience in a computer or technology-related position

3. Demonstrated English Language proficiency

4. A Motor Vehicle Driver's license, valid in New York State, may be required for some, but not all positions.

This job has three levels. To qualify for Levels 2 and 3, additional qualifications, such as education, experience, or certification relevant to the area of specialization are required.

OTHER QUALIFICATIONS

The following qualifications are preferred:
- Possess a strong background in front-end UI/UX (HTML5/CSS/javascript/AJAX/jquery, etc.), backend/server side technologies (Python/.NET/PHP/Java, etc.), RDBMS integration (MS SQL), REST/SOAP/web services/API's, SDLC and modern programming languages
- Experience in the following: developing RDBMS connected applications using .NET or Java on IIS and authenticating against a directory service such as LDAP/Active Directory, installing, configuring and maintaining MS SQL Server databases in a high-availability environment, creating web pages with HTML 5.0 and CSS following responsive design practices
- Experience utilizing API's and Web Services, collecting end-user requirements and translating those into an application/system design document following SDLC best practices, knowledge of SharePoint Framework 2013 or later development, JavaScript, Angular JS, React or other similar technology
- Experience designing, implementing and troubleshooting optimized applications and databases and strong familiarity with Microsoft Server platforms including administering IIS application pools and security.
- Experience in Project Management/Agile Methodology, Mobile app development for iOS and Android
- Knowledge of code versioning tools (e.g. Git)
- Familiarity with legacy programming platforms e.g. ASP, ASP.net, AR/VR development, R and Data Science, OWASP
- Excellent written/verbal communications and problem solving skills
- Availability to work evening and weekends

COMPENSATION

$73,609
