PATHWAYS – Food Studies (A.S.)

The food studies Associates degree program is an interdisciplinary field of study that focuses on the importance of food and food policy as a complex political, economic, and social system. The field incorporates a variety of complex networks, ideologies, environments, consumers and industry sectors. Through the study of these interrelated systems, food studies uses multiple disciplines to examine social, environmental, political and public health issues in the local and global food system.

Food Studies students will also gain familiarity with broader contexts: food systems, food movements, emerging issues, in the food industry and jobs in the food sector. Through experience based partnerships and internships, students will develop skills necessary to both obtain employment in a related sector, and help improve the food environment in the Bronx and the greater New York City region.

The proposed program is design to help students gain skills and experience needed to either transfer to Bachelor’s programs in related fields or get jobs in the industry. The Associate’s Degree program will be complimented by opportunities to participate in concurrent offerings in the College’s Workforce Development program.

REQUIRED COMMON CORE

English Composition .................................................................6
ENG 110, ENG 111
Mathematical & Quantitative Reasoning ........................................4
MAT 120
Life and Physical Sciences.......4
BIO 110 /BIO 111 OR BIO 210

FLEXIBLE COMMON CORE

World Cultures and Global Issues ..................................................3
ANT 101, BLS 101, ENG 200, ENG 213, ENG 215, ENG 222, HIS 201, HIS 202, HUM 100, LAC 108, LAC 118, POL 207, SPA 117, SPA 118, WGS 200
US Experience in its Diversity .........................................................3
