

Are you interested in an IT career and becoming more marketable in the IT field?

► The Continuing Education & Professional Studies Department at Hostos Community College – CUNY is offering partially online test preparation courses for CompTIA A+ and Network + Certification starting in August at **475 Grand Concourse, A-Building Bronx, NY**

► **Benefits:** Development of a skill set for higher level IT certification
Additional career opportunities • Increased credibility in the workplace

CompTIA A+® Certification August 3 - September 25, 2009 7 In-class, 13 Online Sessions (total 70 hrs) **Cost: \$1,500** (includes textbook)

CompTIA A+® Certification is the industry standard for computer support technicians. Having this certification demonstrates a technician's proficiency in installing, configuring, upgrading, diagnosing, performing preventive maintenance at IT systems and services and basic networking skills as an entry level service technician.

Advantage: Individuals who possess this certification can apply for such positions as:
Enterprise Technician • IT Administrator • Field Service Technician • PC Support Specialist

Comp TIA Network +® Certification August 4 - Oct. 6, 2009 19 In-class Sessions, 9 Online Sessions (total 98 hrs) **Cost: \$1,800** (includes textbook)

Comp TIA Network+® Certification is a globally recognized certification attesting to competency in managing, maintaining, installing, troubleshooting, operating, and configuring basic networking infrastructures.

CompTIA recommends that Network+ candidates have at least nine months of experience in network support or administration or adequate academic training along with a CompTIA A+ certification.

Advantage: Individuals with this certification are eligible for such positions as:
Network Technician • Network Field Technician • Network Systems/Data Analysts
