MAJOR REQUIREMENTS

CREDITS

Select one course sequence from an area of concentration different from that selected in the Common Core (Life and Physical Science and Scientific World): ................................. 8
A. BIO 210 and BIO 220
B. CHE 210 and CHE 220
C. PHY 210 and PHY 220

Choose (2) additional courses from the following:
BIO 230, BIO 240, BIO 260, BIO 310, BIO 299, CHE 310/312, CHE 299, MAT 220, MAT 310, PHY 299 ......................... 8-9
Subtotal...................................................................................... 49-51
Free Electives* ........................................................................... 9-11
Total Credits for Degree ................................................................. 60

*Depending on placement, students may be required to complete MAT 160 and/or MAT 30. These students should consult with an advisor in the Math department. Students, who are required to take MAT 160, will complete the course as part of the Common Core Mathematical and Quantitative Reasoning and will take MAT 210 under “free electives”.

Students pursuing Middle and High School certification in Education at Lehman College should select the following courses: EDU 101, 117, 130 and 140.

The program has received a waiver to specify particular courses students must take in STEM areas of the Common Core (Mathematical and Quantitative Reasoning).

If students take a different course in this area, they will be certified as having completed the Common Core area, but it may not be possible for them to finish their degree in 60 credits.
