Sonia Sotomayor's mother is a Hostos grad

Hostos Community College utilizes a single sign-on (SSO) solution, including the use of multi-factor authentication (MFA), to manage access to internal and third party applications. This approach simplifies and consolidates the login experience for our students, faculty and staff while adding a layer of protection against unauthorized access to campus systems.

The system requires end users to configure additional security features to facilitate access to secured campus services, while
