

Please come and support this important department activity. **LIGHT REFRESHMENT WILL BE SERVED – Sponsored by the Math Club (special thanks to Prof. Wolf Lauren to support this from the math club)**

**Mathematics and Mathematics Education Research Seminar**

**Learn to Code with Antoine Patten  
Tuesday April 9th  
3:30-5:00 in C390**

*You will have to opportunity to learn the basics of coding. Data analysis takes many forms. This seminar will demonstrate the utility of coding and how it relates to mathematics. Specifically in areas like inscription. Mathematics in the digital world will be presented by a former student, who studied every level of math while in a medium and maximum security prison. He learned how to program while in prison. Antoine a successful programmer also does free online coding courses and his 14 year old daughter teaches kids and builds Apps herself.*

*Sponsored by OAA, Math club, and reimagining Justice. For more info please contact Prof. Lauren Wolf or Prof. Prince Tanvir. 914-388-5558  
We will have refreshments.*
