

CSTEP SolidWorks Workshop Series

Start Date: Friday, March 4th, 2022

Time: 5:00pm - 6:00pm

About SolidWorks

Great products begin with great design, SOLIDWORKS offers tools that enable you to get from concept to parts and assemblies. Used by more than 5.6 million designers, engineers, managers, and manufacturers around the world, SOLIDWORKS helps drive smarter, faster and easier product development. SOLIDWORKS helps companies innovate thanks to industry leading capabilities.

Learn Engineering Design

1. Upon completion of this course, students will be able to:
 2. Interpret engineering drawings.
3. Developing parts/assemblies using the solid modeling software.
 4. Conduct motion and thermal analysis to designs
 5. Correctly apply tolerances for parts and assemblies.
6. Have the opportunity to obtain the CSWA Certificate for free!
