

## MEMORANDUM

To: Hostos Distribution List  
From: Charles I. Drago, DH.Ed R.T (R,CT)  
Acting Provost and Vice President for Academic Affairs  
Date: April 13, 2021  
Subject: REVISED STEM Waivers for Summer 2021

---

The college has once again received funds to waive tuition for select science and math sections offered during the summer to support STEM credit progression and accumulation. Listed below are the sections which will be eligible for STEM tuition waivers. Students who meet the eligibility requirements should enroll in the listed sections as soon as possible. Registration for the summer sessions begins on April 5.

To be eligible for a STEM waiver, students must meet **all** of the following requirements: (1) Enrolled in the class for the first time, (2) Enrolled in an associate degree program, (3) Require the course for their major, (4) Charged as a New York City resident, and (5) Enrolled in one of the waiver eligible sections. **Students who do not meet the eligibility requirements should not enroll in the waiver eligible sections if there are other sections of the course available.** Students who are not eligible for the waivers, and enroll in the waiver eligible sections, will be responsible for tuition charges.

It is important to note that the application of the STEM waiver will not appear on students' accounts immediately. The posting of the waiver takes place a few weeks after the start of the session when the Bursar has reviewed students' accounts and confirmed eligibility.

### Important Notes

- Students withdrawing from STEM waiver eligible courses are subject to applicable charges if the withdrawal does not take place prior to the relevant deadline. Please visit the Registrar's web page for withdrawal deadlines. **STEM waivers do NOT apply to withdrawal charges.**
- STEM waivers cover tuition only. Students are responsible for fees.
- Students should only register for courses which are needed for their major and for which they meet the pre/co-requisites.
- Students do not have to be financial aid eligible to receive a waiver

<b>Summer Session I: June 1–June 23</b> Final Exam Thursday, June 24			
<b>Course</b>	<b>Name</b>	<b>Section</b>	<b>Number</b>
