Overview

One of the main organizations that serves and represents the needs and interests of students at the Hostos Community College is the Student Government Association (SGA). SGA comprises of sixteen (16) members, seven (7) of which serve as Executive Officers and nine (9) as Senators. SGA members are part of many important college-wide committees including the Hostos Association, College-Wide Senate, Auxiliary Enterprise Committee, Technology Fee Committee, Space Requests Committee and others. SGA organizes cultural, educational and social activities for the student body throughout the school year. It also assists student organizations in the planning and development of their activities. The members of the SGA are elected each year to serve for one year.

Experience with SGA
My experience within SGA was nothing short of life changing and I’ll explain. Not only did coming to Hostos change the direction of my life but learning of and joining SGA provided a structure i did not know i needed and craved for. It taught me how to be responsible for someone other than myself, it gave me a team and a whole student body to care for and an opportunity to improve our little ecosystem we call Hostos. I took great pride in the trust that was given to me by the students when they elected me as president but it was an awesome responsibility that I tried my best at and not let my peers down. No one teaches you how to be a good senator or president or even a good person for that matter so you have to take up the challenge both in these roles and in life and ask yourself when you do anything in life am I doing it for the right reasons? I knew i wanted to be the bridge between the students and administration and give hope to the younger generations that we are more than capable or being well articulated and calculated leaders for our people. My hidden agenda was to enlighten those around me of the corruption in the system and unite all I could though I do not speak these words often those closest to me knew what i am about. We have to take care of our community we must create and empower the leaders of tomorrow and not feel scared or ashamed for speaking our truth. I focused on 3 things I felt where critical which were financial literacy, leadership development and civic engagement. It’s important to have a plan not only for SGA but in life and solid agenda in mind so that you can move accordingly throughout your life and your term And your college career because your still a student at the end of the day do not over burden yourself and do not bite off more then you can chew, also don’t be afraid to ask your team for help you are not weak for seeking help the smart do this very well. One of my biggest pieces of advice is make sure everyone pulls their own weight because you’re only as strong as your weakest link. Also to help each other grow you are a family for better or worse and don’t squander the opportunity to make an impact and difference in the lives of those around you. Take this serious because you were elected by those around you because they believe in you don’t let them down. The things I learned from SGA like organization or the development of my leadership skills And emotional intelligence skills is something ill carry with me the rest of my life. Also remember to network especially in USS you never know who is who and where they will be create a powerful network of leaders and plant seeds of knowledge and love wherever you go. Respect those you represent and respect yourself.
in whatever position you play. Always remember you represent the students and they look up to you and to you for guidance. Also keep the future in mind time is not our friend in these positions so make sure you have a good successor if you can as i was blessed to have. Share the things you weren’t able to complete in your term so that the next SGA may carry on the fight. I know that leadership is no easy task but if you choose to sit at the table make sure you have something to offer. Also, always keep a journal as to document and expand on your mind, thoughts and ideas your mind is a beautiful place only if you tend to the garden that it is.

**Recommendations (for the next SGA)**

1. Take care of yourself; You cannot pour from an empty cup.
2. Take care of your team and they will take care of you.
3. Lean on one another for support but more importantly have a shared vision of what it is you all want to accomplish.
4. People wish to have your spot in SGA and opportunity; don’t waste your shot to really make impact.
5. Refine your leadership skills, emotional intelligence skills and communication skills.
6. I would also like to recommend a few books for those of you who actually took the time to read this. I promise you there are pieces of wisdom that someone shared with me once as well. Books I recommend:
   a. *48 Laws of Power* by Robert Greene
   b. *How to Win Friends and Influence People* by Dale Carnegie
   c. *The Prince* by Niccolo Machiavelli
   d. *Go Giver* by Bob Burg

Summer 2019, Fall 2019 and Spring 2020

Experience with SGA
I joined the SGA from the influence of my then-friend now-husband Khalifa Diao back in spring 2019. I was just a regular girl wanting to be more involved with the school but not really knowing how. I've always wanted the help in some sort of way, but that's always easier said than done. I was honestly shy, and hadn't really established what I wanted for myself or my future-but joining the student government definitely helped in figuring that out. I think the most important thing I learned coming out of this is that you will learn to respect and appreciate others' walks of life. It's so easy to stay within one's own 'comfortable' bubble, but unless you are willing to be uncomfortable, learn about others, be considerate and challenge the status-quo else you aren't leveling up yourself or your team.

Recommendations (for the next SGA)
1. Be kind and considerate
2. Educate oneself: You represent a body of people and your influence must come from a good and respectful place.
3. Remember your job: The first priority is students. Remember who put you in office and who you represent, else you are a disservice to many.

Summer 2019, Fall 2019 and Spring 2020

Experience with SGA

Joining SGA was for many reasons, and it has had a positive impact in my educational life and life in general. I became a member to gain leadership skills, learn more and improve upon myself, to be of help to the student body, to be a part of activities hosted in the school and to learn more of teamwork. In fact, I have really improved on myself since I joined the SGA and learned diverse ways of handling people and their opinions. I have been in SGA for summer, fall and spring semesters, and at the beginning of the first semesters, I was not sure of myself but later on, with the help of my team and advisors, I was able to do the responsibilities of the three positions I held. During my time in SGA, I had a full-time class and job but it did not become a hindrance to doing my work well in the SGA. I got myself involved in most events and I enjoyed it all. Some members left the team for many reasons and some stayed but at the end, I think we did a great job during our term of office. Even though the pandemic (COVID-19) hit the world during our term, I think through it all we stood, spoke and did the best we could on the behalf of the students. I learned a lot as a member of the SGA. SGA has helped me balance my responsibilities, keep up with my academic work and has helped me stay focused and organized.

Recommendations (for the next SGA)

1. Do doubt yourself
2. Be time conscious
3. Respect others opinion
4. Get involved in events/activities
5. Be able to balance your responsibilities
6. Be a good team member
7. Try to listen to other students apart from SGA members to know their thought as well
8. Always stay focused and be on top of your game
9. If you don't understand something, ask for help

Summer 2019, Fall 2019 and Spring 2020

Experience with SGA
I joined SGA to serve Hostos and to help resolve issues I saw on campus. Sometimes I felt my voice was not heard by everyone when I had ideas or had suggestions during meetings. I also felt pressured to do certain things. I wish I had taken the chance to plan my own events instead of just helping in fellow members events. I was very honored to serve and attend trips such as the SGA retreat, the CUNY New Leadership Challenge Conference and the NYSABPRL conference both with USS. Overall, I felt I should have done a little more in event creating, but other than that my experience was enjoyable but yet bittersweet at times.

Recommendations (for the next SGA)
I recommend the following:

1. Make sure to try planning your own events. (Ask for help if needed from fellow members.)
2. Be punctual to attending meetings.
3. Try hard to maintain a balance between your responsibilities in SGA with your schoolwork and personal life.
4. Don't let fellow members patronize you or make you feel small, we are all students.
5. Take use of office hours to do school work or SGA planning.

Summer 2019 and Fall 2019

Experience with SGA
I joined the SGA because I thought I was going to be able to make a small change within the HCC student body. But I was met with many hostile individuals. For the most part, the experience was terrible, besides certain times where some people would put aside their feelings and would agree on helping the students. There many people who were part of the SGA because of the office and stipends they get. Their whole deal was not to work nor letting other people work. I remember one of the meetings one person who is extremely unfit for any leadership position proposed to "pay somebody to draw pictures of the current members of the SGA with oligarch like outfits while sitting on a throne." In addition to that, I am happy I was able to promote mental health awareness and a hardship scholarship. I learned to keep my head calm when somebody is defaming my name.

Fall 2019 and Spring 2020

Experience with SGA
It has been a learning experience for me. I joined the SGA to help make information easily accessible to students. Although I joined in late, I was able to take part in organizing events. The highlight for me was the Welcome Week. It gave me the opportunity to interact with freshmen especially, and to educate them on the on-campus resources available to them and how they can use them effectively.

Spring 2020

Experience with SGA
My experience with the SGA was all about adjusting to a new environment, where I had the opportunity to attend meetings with the administration board to vote upon things that will benefit the students on campus.

There reason I join the SGA was to help students in any way that I could, in addition, for the past two years that I attended Hostos community college I was never involved into activities on campus. So my focus was to get students involved into activities.

Things turn out just like the way I wanted it to be, with the help and support that I had from my team. Being part of the SGA is the best thing that have ever happened in my life. Within the SGA, I learned how to become a good leader and a team player; I also learned how to make rational decisions that will benefit others.

Summer 2019, Fall 2019 and Spring 2020

Experience with SGA
Being an SGA member is the best action I did during my study in HCC. I joined because I wanted to represent Muslim students in the first line, and all Hostos' students in the second line, I had good relationships with most of the students and I know what they face and need, so I tried to be close from them as I can as possible, my office was the best place where everyone can say what he think freely, and the quiet corner for everyone who has problems and needs someone to talk to. During my period as an SGA senator, I could help students and put their issues in the SGA meetings table to discuss with my beers and find solutions for it. I could help most of the students who have no financial aid or doesn't receive ASAP help to find free books that they need, I tried to connect between students and this made us feel as one community even if all of us from different countries, and I think this one of the most goals for most community colleges. To be honest, not everything turns out the way that I planned, because of many reasons I couldn't attend most of the college events that I should be the first person there, and my plan to do a big celebration day didn't do because of college close due to COVID19. But, Yes, I learned a lot of good things that for sure will help me in my academic and career path.

Recommendations (for the next SGA)
I advise them to be close to students, listen to them and try to solve their individual and group problems. My advise to the members of SGA is to respect each other and not make hypocrisy a way between them.

Experience with SGA
I joined the SGA because I wanted to be the change for others who couldn't, help those who
couldn't help themselves, to be someone who people can rely on when things go wrong or not as
planned. I had an amazing team backing me up so things turned out the way I planned, even
though I wanted to be the change for others I couldn't do it alone and my team helped me when I
needed it most. My experience with SGA is like a big family, when needed they have your back
and when lost can be that light you need.

Recommendations (for the next SGA)
My recommendations for the next SGA is: Give it all you have and become a change for someone

Recommendations (for the next SGA)
1. ASK QUESTIONS. We all come here with high hopes and expectations. We wish to do the most we can. To achieve the best results, ask your team, ask for help from Jerry and Jason. They have seen it all. Do not hesitate to ask how to go about, who to speak to, where to go.
2. SPEAK UP: Even if you feel you are the minority in the room, even if you feel your opinion won’t add into the atmosphere. Speak up for everything you believe in.

Thoughts about the 2019-2020 SGA administration

The 2019-2020 SGA team was a unique administration that faced numerous challenges. To begin, the team lost and replaced more members than any administration in recent years. Prior to taking office, one of the Senators resigned. During the Summer, one of the Commissioners resigned. On the first week of classes, the Chair of Senate resigned. A couple of weeks into the semester, another Senator and the Treasurer resigned. In January, several members graduated. Nevertheless, the team was able to recover from each of these losses by conducting the necessary interviews and reassigning tasks among the active members so that plans could continue moving forward.

Another challenge that the team faced was finding a collective identity. This was due in part to the fact that not all of the members could attend the SGA Retreat. This gathering is one of the most important for an administration and the fact that some of the members could not attend (or were elected to fill vacancies during the middle of the semester) caused delays in the team’s ability to become familiar with one another and effectively define which secondary role each member should play. Although the administration was able to hold a significant number of events, not all of them were planned and held a as team. This had a taxing effect on the most active members.

The third and most significant challenge faced by the team was the COVID-19 pandemic. The Spring 2020 semester looked set to go until the pandemic made its presence felt. Prior to its arrival, the team was functioning as originally planned. All of the positions were filled. The team was able to organize a few events the first week of classes. They sponsored/co-sponsored events organized by offices within the college that reflected the student empowerment goals that they sought to promote. There were plans on the table to work in collaboration with student organizations. However, many of these plans came to a screeching halt when the pandemic arrived and the college was forced to transition to distance learning. Faced with this challenge, the team took a bold step and decided to allocate the balance of its Spring 2020 budget to help students facing hardships. Several meetings with the President and other members of the administration
took place to make sure that approaches to help students in need were identified and implemented. Follow-up communication was constant. Rather than stand still and see how the situation would unfold, the team continued its active approach reinventing its ways to assist students.

In June, the team held its annual transition meeting to provide an orientation to the new SGA administration. Although the orientation took place online (due to the ongoing social gathering limitations caused by the pandemic), one could still sense the interest and the passion coming from the participants. The sense of commitment to continued service for the students was also evident. Although the 2019-2020 administration could not fully carry out all of its plans, there appears to be a sense of mutual purpose with the new team that should result in many of those plans taking place in the upcoming year.
Thoughts about the 2019-2020 SGA administration

The ability of this year’s Student Government Association to regroup time and time again after so many transitions is a testament to their perseverance. Despite a multitude of challenges, resignations, unforeseen obstacles and a worldwide pandemic, the Hostos SGA for 2019-2020 came together to work for the benefit of the entire Hostos Community College Community.

Beginning with the CUNY New Leadership Challenge, members of the group began to discuss pivotal ideas and establish plans for a functional set of goals for the Academic Year. These discussions were given roots at the annual retreat at Edith Macy Conference Center, where the group began to negotiate and come to consensus on issues and topics that were relevant to not only their academic careers but to the well-being of student body as a whole. From the beginning, there was a strong desire to address the needs on underrepresented populations within the school, including Dreamers and Undocumented Students, LGBTQ students and students living in shelters and those who were food insecure. There were also discussions about working on attending to the needs of international students and the incredible costs that they were paying to attend the college. At the retreat the SGA as it was constituted developed a plan called SGA AWARE (Advisement, Wellness, Assistance, Resources and Exposure). They also discussed in detail their Code of Conduct and how they would enhance it. And with guidance from the Administration, they began to discuss a Student Activity Fee referendum.

Many members of this year’s leadership group made contributions to the community through service and several made contributions to the community by speaking out on issues that they felt were of great importance. In many ways, the collective was able to effect change in significant ways throughout the year and has left a good standard that the 2020-2021 group will have to live up to.

Several notable highlights include:
President Kelvin Pineda’s continued efforts with regard to helping undocumented students deal with ICE Investigations, by promoting the Know Your Rights Campaign, working on Food Insecurity Issues by pressing for funds to be given to Single Stop and to help purchase products for the Food Pantry and in taking a very strong stand on addressing Women’s Issues on campus, by supporting events to celebrate women at the college, discussing providing feminine hygiene supplies in all of the restrooms and discussing safe spaces to take care of children and their needs.

Khalifa Diao and Muiz Agbaje worked diligently on providing support to international students and helped to celebrate a number of cultures throughout the course of the year including the African Diaspora.

Somaya Nasher and America Rahimee were responsible for facilitating a Yemeni Cultural Day.

Golvis Tavarez-Santos took on the issues of health and mental wellness and worked with several offices of the college to provide a Mental Health First Aid day long course for all members of the college community.

Andre Thompson and Lusleidy Perez represented the University at a number of events; specifically two annual legislative conferences in Albany.

SGA members made contributions to volunteer efforts that included: The 9-11 National Day of Service event at the Intrepid Museum, the Making Strides Against Breast Cancer Walk at Orchard Beach, The Walk to End Alzheimer's, the Hostos SGA/SLA/PTK Thanksgiving Giveaway, the Hostos Children’s Center Toy Giveaway, Christmas in Chinatown, POTS Soup Kitchen, and a number of other activities. Notable participation at many of these events by Mohamed Aden, Golvis Tavarez Santos, Rassambenewende Ouedraogo, Leyddy Ogando, Julian Adams, Alex Essiamah, Muiz Agbaje, Kelvin Pineda, Andre Thompson Salimatou Bah, Amdiya Kyemtore, America Rahimee, Brian Carter, Lusleidy Perez and Denisse Feliz. Almost all of the members of the 2019-2020 SGA participated in volunteer projects, which included their own activities throughout the course of the year.

The 2019-2020 SGA co-sponsored a number of Student Leadership Academy activities and initiatives; including the Hostos Student Leadership Academy Scholarship Orientations, the Hostos Student Leadership Academy Winter Workshop Series, the SGA/SLA/PTK Thanksgiving Giveaway and the 13th Annual Passing the Torch Ceremony. (SGA members were also honored at the Passing the Torch Ceremony for their work as SGA members.) The most ambitious collaboration between SGA and SLA came with regard to the establishment of the Services On Site (SOS) Team to work at the SGA Information Booth. This initiative involved the development and distribution of specially designed hoodies for the booth employees to wear, so that they could be easily identified. (Andre Thompson designed the hoodie.) This initiative helped with getting signatures for the SAF referendum and with other initiatives promoted by the SGA. Members of
the SLA volunteered with the very successful SGA Valentine’s Day event and with the Fall, Spring Munchies Events.

Several members of the 2019-2020 Student Government Association were part of the National Model United Nations team that took part in the conference in Washington, D.C. in the fall of 2019. These members included Mohamed Aden, Salimatou Bah, Amdiya Kyemtore, Andre Thompson and Julian Adams. Their Head Delegate and trainer for the event was former SGA member Rokia Diabi. Two members of the 2020 SGA participated in the New York State Model Senate Session in Albany: Denisse Feliz and Andre Thompson. Two members of the Hostos SGA were selected to be a part of the Kaplan Leadership Program; Alex Essiamah and Mohamed Aden. The Hostos SGA sponsored scholarships for students who had financial need and also sponsored merit-based scholarships and under the leadership of Kelvn Pineda, they awarded 40 scholarships for the 2019-2020 school year. As a group, the representatives from 2019-2020 took their responsibilities seriously and made a concerted effort to improve the college and the lives of the student body. There were many opportunities for collaboration and the group worked effectively at efforts to provide resources for the academic community during the Covid-19 Global Pandemic. They offered food resources via the Hostos Food Bank, and they offered to provide funding for laptops and mobile network devices if they were necessary.

Each member had a particular set of goals and worked diligently to effect change in their areas:

I also want to say that the collaboration of SGA and SLA has maintained the SGA Information Booth in full function and open five days a week, between the hours of 9 am and 6 pm. We hope to continue these efforts and to continue to provide support to the SGA as they hold events, such as the Munchies giveaway and the Valentine’s Day giveaway. In addition, the Hostos SLA has assisted in providing SGA with business cards, flyers and publicity to help the entire Hostos student body know who they are and what they can do to support students in need and who need representation. Finally, I would say congratulations to all the members of the SGA who graduated and congratulations to those who have been re-elected and will serve in 2020-2021. You are all greatly appreciated and your hard work on behalf of the college, the University and the students and the community are truly valued.

Thoughts about the 2019-2020 SGA administration

This Student Government did a tremendous job as far as representing their student body. They had a voice, had opportunities to share perspectives and influence campus issues, and potentially had resources and access to campus administrators that most student organizations do not have. In addition, they interacted with the Student Clubs, took the time to make sure they were planning the events in a timely manner, even helping develop their flyers for the event.

They were able to serve students and administrators by representing the needs of students’ on-campus and off-campus. I think they developed a lot of leadership skills, always willing to listen to the ideas of others, put a boundary between their personal and professional life. With this said, I can say they were able to grow as a person in the Student Government Association.

Lastly, for the next year Student Government Association, I recommend that they should have a better communication and teamwork; everyone needs to be on the same page. When planning an activity, they need to meet, schedule, and have a timeline and commitment. I hope they would continue during the Scholarships, Club Fairs and Emergency Metrocards.

*Final thought:* As you know many students in Hostos can’t afford to buy meals but I feel if the Student Government next year could help students out with food vouchers twice a month and not just once a month because that is possible. I recommend the voucher be for $10.00. The vouchers should remain in the office of Student Government, Student Activities. It is hard for students to travel to the D-building and then come back to the C-building to purchase lunch and make it to class on time.

What remarks do you have about the event?
I think the event was amazing! I am so appreciative of all my group members who took their time in helping—it takes a team. With that being said, pre-planning is the most important, I wish more resources on this circulated on this topic. Creating a poster, printing the poster, distribution, word-of-mouth, collaboration, email templates, sign-in sheets, itinerary, budget lists, budget proposals and so much more are required in creating an event.
