Overview

One of the main organizations that serves and represents the needs and interests of students at the Hostos Community College is the Student Government Association (SGA). SGA comprises of sixteen (16) members, seven (7) of which serve as Executive Officers and nine (9) as Senators. SGA members are part of many important college-wide committees including the Hostos Association, College-Wide Senate, Auxiliary Enterprise Committee, Technology Fee Committee, Space Requests Committee and others. SGA organizes cultural, educational and social activities for the student body throughout the school year. It also assists student organizations in the planning and development of their activities. The members of the SGA are elected each year to serve for one year.

Why did you join SGA? What was your motivation?

- I joined the Student Government Association (SGA) because of my strong desire to help others and my deep gratitude towards the community I grew up in. Having received immense support and opportunities from those around me, I felt a strong sense of responsibility to pay it forward. The SGA presented the perfect platform for me to serve and represent my fellow students, advocating for their needs and working towards positive change.

In your opinion, what were the most challenging things that this SGA administration faced?

- The most challenging things that we faced were meeting deadlines. We had planned events out but it became hard to follow through and complete assignments in a timely matter.

What are you most proud of as far as this SGA team is concerned?

- I am incredibly proud of the unity within our group. Witnessing the way we come together, support one another, and work towards common goals fills me with a sense of pride and gratitude. Despite our diverse backgrounds and perspectives, we have fostered a culture of inclusivity and collaboration. The bond we share goes beyond our individual

roles and responsibilities. It is a testament to our collective commitment to serving our community and making a positive impact.

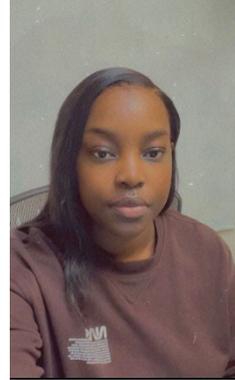

How would you rate this SGA team's performance?

- On a scale of 1 to 10 (with 10 being the highest score), I would give this SGA team a 7 for their efforts to serve students.

What recommendations would you give to the next SGA?

- I would recommend to the next SGA to construct early in the summer a plan for the semester ahead. Always knowing what will come next makes the process a lot easier. If anything comes up then you can adapt but at least having something set for each month will work wonders.

Thoughts about the 2022-2023 SGA administration

There are two words that come to mind when I think about the 2022-2023 SGA administration: Challenges and perseverance.

The first challenge faced by the team took place during the Spring 2022 Student Government Elections. Although there were sixteen positions available, only six candidates ran for office. Once elected, the team faced its second challenge: One of the elected officers did not meet the academic requirements to stay in office. Another challenge followed when two of the remaining five officers decided that they did not have enough time to dedicate to being a student officer and resigned from their posts. Thus, a team that began with six members was reduced to three members.

Despite this tremendous hurdle, the team continued to move forward. Applications for candidacy were given out and the team was able to recruit five additional members. This effort allowed the team to hold its first official meeting and establish an Executive Board. A few weeks later, the team recruited an additional three members and was thus able to establish its Senate.

Having eleven members on board allowed the administration to plan and hold events. The team held two Welcome Days events at the SGA Counter, giving out drawstring bags, notebooks and pens to students. This was followed by the Fall 2022 Survey, which asked students for feedback about what events they would like to see on campus and in what ways they believed that SGA would be able to assist them. The concerns raised by the students were then shared with President Cocco de Filippis and members of the administration during monthly meetings. The team also began to plan and hold events, most of them led by Executive Secretary Abigail Boateng and Budget and Finance Commissioner Brian Carter.

Another way in which the increased membership paid off was in the form of student representation on college committees. SGA members were appointed to serve on the Hostos Association, the University Student Senate (USS), the Hostos College-Wide Senate and several college

committees. The increased visibility of the team also allowed it to encourage other students to join SGA, with another two Senators taking office in September, one in October and one in November. Thus, a team that at one point consisted of only three members grew to fifteen members.

The Spring 2023 semester began with the usual challenge of having some members graduate or transfer to another college. However, this was coupled by an unusual development: The resignation of three officers. The first resignation came from the Vice President of Student Affairs. This was followed by the resignation of the President. Shortly after, the Executive Secretary submitted her resignation. Thus, the team that a couple of months before celebrated rising from three to fifteen members and organizing several events was once again in danger of lacking enough members to hold its meetings and moving forward their initiatives.

Fortunately, the remaining members took this challenge not as a sign that they should give up and accept that their efforts were fruitless, but rather as an opportunity to restructure the team and refocus their approach. A new Executive Board was created and this board immediately began to promote the idea that more events needed to be organized in order to better serve the student population. The Board understood that in order to be more active, more members needed to be on board, so it began to recruit more students to serve. Within a couple of weeks, the team rose to thirteen members and began to make its presence felt throughout campus. Events were organized, committee seats were filled and concerns were shared with the administration and acted upon. SGA thrived on all cylinders and they were able to close off the academic year as they had envisioned.

Many members of the SGA team were recognized for their efforts both inside and outside the classroom. Vice President Yassine Gaye was named the Valedictorian of the Class of 2023. President José González, Vice President Kathy Disla, Commissioner Brian Carter, Executive Secretary Kobe Jacobs, Commissioner Adama Mbengue, Senate Secretary Nasrin Akter, Senator Elizabeth Soto, Senator Kacey Witter and former Senator Malik Pellington were recognized at several events, including the Honors Convocation, the Passing the Torch Ceremony and the SGA Recognition Event. The awards received exemplified the perseverance that characterized this team and its ability to overcome many challenges during the academic year.

Thoughts about the 2022-2023 SGA administration

A simple return to normal, from a breakdown is impossible without the commitment and effort of every member of the community and even then, it will take time for the body as a whole to return to its former glory completely. With the declarations that the COVID-19 pandemic was over in the summer of 2022 and a return to familiar practices and routines for most members of our communities did not fully end questions, concerns or quell all fears. In some homes, for many people the sense of dread, a feeling of a loss of security a real health concerns pervaded, while in other homes, other people fell back into the lives they were leading before the pandemic started, saying “never again.”

The ability of this year’s Student Government Association to persevere in changing times, still daunted by uncertainty, but pursuing hope is a testament to their ability to have a vision for themselves and the college. The 2022-2023 version of the SGA began its journey with leaders, who came from a variety of backgrounds and experiences but nevertheless took up the mantle of their predecessors and worked to live up to the mission of their constitution.

Beginning in spring of 2022, there was a firm movement by the college and the University to move all things back to in-person, with most commencement ceremonies and related activities no longer being conducted in a remote environment. That being said, the SGA began its term of office, by conducting meetings online and working to get the group together for those sessions. Soon after the fall semester began, there was notice given that the SGA, because of their Open Meetings Law requirement would have to start meeting in person. That change created a significant challenge for several members of the team and despite adding a few members to fill vacant seats, the group was usually compromised by an inability to meet quorum. The group never reached their full number of members. This not only impacted the SGA member meetings, but also their participation in the College-Wide Senate, at the University Student Senate and even in committee meetings. That being said, several members of the group worked diligently to serve as representatives in areas of greatest need and fill in for others, when there were difficulties.

Many members of this year's leadership group made contributions to the community through service and several made contributions to the community by speaking out on issues that they felt were of great importance. In many ways, the collective was able to effect change in significant ways throughout the year and has left a good standard that the 2023-2024 group will have to live up to. As a group, the representatives from 2022-2023 took their responsibilities seriously and made a concerted effort to improve the college and the lives of the student body. There were many opportunities for collaboration and the group worked on efforts to provide resources for the academic community and the students at the college. The SGA collaborated with the Counselling Center on a number of conversations to help address the challenges faced by students in rapidly re-imagined college environment, they worked with the Office of the President to ensure that the voices of the students were heard in every activity that took place on the campus. They also worked with the Scholarships Office to re-visit the SGA scholarships. They worked with ASAP and Chase Bank to provide local Financial Literacy workshops. They worked with One Stop, Phi Theta Kappa and the SLA to give out food to families affiliated with the college for the Thanksgiving holiday. They worked with the Children's Center to purchase books for the holidays to be given to the children. (Started out as a Christmas opportunity, but turned into a Valentine's Day activity.) They also worked in support of the Family Empowerment Program, the Nurse's Office and several departments on campus to support activities and initiatives that were proposed and ultimately led to events. The SGA's participation included co-sponsoring, which included funding and participating, by volunteering. Senator Kacey Witter-Duncan provided an opportunity to SGA/SLA and OSA to come together to celebrate The Borinqueneers by collaborating with the Office of Veterans Affairs. Budget and Finance Commissioner Brian Carter was responsible for the ongoing collaborations with the Counseling Unit, ASAP Director Siddique Mohammed and Chase Bank for the Financial Literacy Workshops. Executive Secretary Abigail Boateng was responsible for the first party, a Rep Your Flag Party, since before the pandemic began and also sponsored a Tie-dye event that was well attended in the Fall. Senator Elizabeth Soto made it her mission to work on getting information out to students about scholarships and also worked with President Leighton Ozoria to fund and select the books to be distributed at the Children's Center. In his time as Vice President and Chair of the Senate, Jose Gonzalez worked on dismantling issues of concern, brought to the attention of the SGA, by meeting regularly with the Provost and all of the SGA members spurred on by former SGA President Brian Carter pressured to have a cafeteria in place and at the beginning of January there was one up and operating. Several members of the SGA visited with several vendors and made recommendations. Special recognition to President's Ozoria and Gonzalez for their weekly contributions to the El Semanario Hostosiano/The Hostos Weekly Newsletter and their comments presented before the College-Wide Senate.

I want to recognize the willingness of members of the SGA to represent and to also step-up in times of need. Leighton Ozoria, Jose Gonzalez and Ashanti Malcolm helped welcome new students to the campus at the New Student Orientation in the Fall. When members stepped down from positions, Jose Gonzalez stepped up to be President, Yassine Gaye stepped up to serve as

Vice President of Student Affairs, Kathy Disla took on the role of Vice President of Academic Affairs and Chair of the Senate, Kobe Jacobs accepted the role of Executive Secretary and Nasrin Akter took on the role of Senate Secretary.

For their part Abbi Raper, Yassir Djossou, Nasrin Akter and Adama Mbengue put in the most time during the food giveaway at Thanksgiving. The entire SGA participated though and even those who had not been appointed to the SGA yet helped out. All members of the Fall team participated in the first campus party and either decorated, cleaned up, served food or participated in some other way in the event.

Adama Mbenge, Kacey Witter Duncan and Leighton Ozoria went to Washington, D.C. to represent the college at an event on Capitol Hill and Adama, Kacey and Orlando Soto Jr. went to meet the First Lady of the United States at LaGuardia Airport in the Spring.

Teyanna Buckle worked to help address issues facing the sexual health and wellness of the students on campus, while also addressing issues and concerns in the bathrooms. Orlando Soto, Jr. brought up concerns of students around the campus who felt that there was no club for them to take part in.

Elizabeth Soto worked with Nurse Vasquez to support several activities, including Breast Cancer Awareness and World AIDS Day.

Kobe Bryant was responsible for SGA Trivia Day and SGA Sip and Paint Activity in the spring, which were both well-attended.

A number of our SGA members held jobs or served in the military reserves, had children or religious or familial commitments throughout their time in office and often had to attend to their responsibilities judiciously, and thus the pressures of being a student, a representative of the student body and all the other roles they played in their personal lives often meant they were extraordinarily tired. For the most part, all of the members of the SGA met or exceeded their responsibilities even while facing the demands of their own lives and responsibilities to themselves. I truly believe that the efforts of the members of the SGA for 2022-2023 made an incredible difference and had a huge impact, for the better, on the college and all the members of the community. Their accomplishments, achievements and efforts should be documented as what it is, which is transformational leadership. Finally, I would say congratulations to all the members of the SGA who graduated and congratulations to those who have been re-elected and will serve in 2023-2024. You are all greatly appreciated and your hard work on behalf of the college, the University and the students and the community are truly valued.

Also, congratulations to the graduates of Hostos, who were recipients of numerous awards and recognition at Honors Convocation and Graduation.

Yassine Gaye who was also the Valedictorian

Thoughts about the 2022-2023 SGA administration

I must say that Student Government did a good job as far as representing their student body this year.

They were able to serve students and administrators by representing the needs of students on campus. I think they developed a lot of communication with the students by doing on campus activities. They were able to meet the needs of some of our students. Some of the members gain a great deal of leadership skills, always willing to listen to the ideas of others

My only problem with this group of SGA members is that they did not communicate well with one another. Most of them put their personal needs a head of the student needs.

I give credit to Brian Carter, Kobe Jacobs, Jose Gonzalez and Abigail Boateng who were able to do events for our student bodies. One thing that I want to talk about is the Scholarships that SGA was supposed to be granting to students in need. I have not heard anything about it. Most of our students looks forward to Scholarships to help them with their tuition or personal needs.

Final thought:

Congratulations for a great job. Hopefully this new group of SGA members can communicate much better with each other and have more events.
